

Pulser / Register Compatibility Chart

Last Updated 2/19/26

This list has been compiled with information and photos from customers in the field, tech support calls, manufacturers online documentation, etc... These references may not be 100% accurate as manufacturers change their products over time and may not publish these changes in a timely manner.

Items in red indicate there is no ICS pulser available for this unit. Items in green are units which work with the listed ICS pulser, and units in violet are units likely to work with an ICS pulser, but it is up to the customer to confirm.

Items in grey indicate ICS no longer makes a pulser for this unit.

Company	Product	Register	Pulser	Notes
Bennett	3000 Series (electronic)	Electronic	Pulse Output Board Option	Confirmed by Bennett 5/23/13
Bennett	3000 Series (mechanical)	V-R registers	SP1	Confirmed by 3000 Series mechanical manual
Bennett	3100 Commerical Mechanical	V-R 101	SP1	Confirmed by 3000 Series mechanical manual
Bennett	3200 Commerical Mechanical	V-R 101	SP1	Confirmed by 3000 Series mechanical manual
Bennett	3300 Commerical Mechanical	VR10/4	SP1	Confirmed by 3000 Series mechanical manual
Bennett	3400 Commerical Mechanical	VR10/4	SP1	Confirmed by 3000 Series mechanical manual
Bennett	3500 Commerical Mechanical	VR10	SP1	Confirmed by 3000 Series mechanical manual
